-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "180", "200". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 27 is rejected under 35 U.S.C. 102(b) as being anticipated by Schaaf (US Pat No 5,470,466).

Art Unit: 1724

Schaaf teaches at least one magnet (A) to separate magnetic particles by particle-clinging to a non-magnetic removable sheath (B) around the magnet so that removal of the magnet from the sheath permits easy cleaning of the particles off the sheath (Fig. 3).

Allowable Subject Matter

4. Claims 1-26 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

Per claims 1-22, while it is known in the art to provide first reservoir means, gravity means, retrieving means, outlet means (see US Pat No 2,099,061 to Gordon) and it is known in the art to provide a vertical cylinder within a reservoir (see US Pat No 3,688,781 to Talley, Jr.), in the examiner's opinion, the prior art fails to teach or fairly suggest combining the known elements to derive the instant invention as recited.

Per claims 23-26, while it is known in the art to provide a system including means for providing a smaller reservoir inside a larger reservoir, the smaller reservoir having means to remove cleaner portions of solvent to the larger reservoir, and means to remove and clean the smaller reservoir (see US Pat No 2,099,061 to Gordon) , in the examiner's opinion, the prior art fails to teach or fairly suggest recirculating the solvent as recited.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References are cited of interest to show the state of the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fred Prince whose telephone number is (571) 272-1165. The examiner can normally be reached on Monday-Thursday, 6:30-4:00; alt. Fridays 6:30-3:00.
